# Goodshelter Weekly Newsletter

## Friday 2<sup>nd</sup> October 2020

Dear Parents,

What a lovely (even if it was very soggy) week we have had in Goodshelter.

### Reading

The children have received reading books and reading diaries, reading should be completed at least three times a week and recorded, I will check on Friday and give out some special stickers: D

On Wednesday we had our first Forest School session of the week, as you could probably tell from the clothes we had lots and lots of fun. We found out that rain makes the slide very slippy and a lot of fun to go down. We also made ourselves lots of dens using the tarps and trees to hide from the rain. Some of us made some great meals from mud, water and tomatoes', they looked delicious!

### Homework

**Can you make or draw a model river, it's up to you how you do it, maybe you could even add labels- to be completed in 3 weeks' times**  
**Spellings are on google classroom to learn for next Friday**

We also talked a lot about how the season is changing to Autumn and how we can spot that is happening. Forest school sessions are always so interesting! Pete also bought Olive along with him so we got to play with her which was lovely, she's grown so much!

### PE

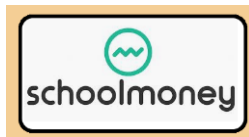

We have our PE lessons on a Monday and Thursday so they will need their kits in school then

In Geography this week we have been learning about the different structures of a river and which part of a river we would find this. For example, why there are meanders in the middle course of a river. We used big paper to make the different structures to support our learning.

### School Meals

A BIG "Thank you" to all our parents who have ordered their children's lunches online. If you haven't ordered your child's lunch please could you order them over the weekend. The menu's are available up to half term. Please contact the office on 01548 531275 if you are having any difficulties ordering.

In maths this week we have been using lots of different resources to represent numbers, we have now found 10 different ways to represent numbers including part whole models, place value charts, number lines and base ten.

In English we have been using adverbs and fronted adverbials to add extra detail to our writing. We used this skill to write our own setting description of a market in Trinidad.

Have a lovely weekend, I hope it's not too soggy!  
Miss Alen

**Heath** for always putting 100% effort into his work

### Values Award

**Ciara** for showing the value of fairness and always sharing

### Attendance

Our attendance last week was:  
100%

**WOW! Well done Goodshelter!**
