

Beesands Nursery Newsletter

April 2022

Chaleton C of E Academy

In Beesands Nursery this half term we've enjoyed watching the progress of our children. They are doing so well in the Nursery environment, their speech, language and vocabulary is progressing and they, at times, astound me with knowledge beyond their years. Our young additions, have all settled very well and have found their rhythm, with much progress being seen in all areas.

Some of the things we have enjoyed the most are Forest School, growing our own carrots, butternut squash, tomatoes and salad ready to plant in our Beesands garden bed, nurturing our tadpoles, playing bird, bug and sealife bingo for concentration and identification. We've also loved making use of new resources to practice throwing, using the space hoppers for physical development, cooking, practicing flower identification, doing number work and writing practise resulting in some children being able to write their own names. As always, there's been plenty of craft and outdoor play in the adventure and much, much more.

Our current role play is a Vet's surgery which is proving popular and resulting in some very entertaining speech! Sadly, Miss Eynon had to move on to a new year-round post, but I have been well supported by cover staff to ensure your children have the best care in the interim. We are having fun learning our "Gruffalo rap" and will be filming it to release to you by the end of term. Delightfully hilarious!

Have a fantastic Easter Break,

Mrs Sanders
