Home Learning:

Home learning consists of reading Maths and curriculum themed projects.

Reading

Reading is key to everything your child will do in school. At Charleton, we want our children to be confident readers with a love of books. Your support with reading is essential. This week your child will be bringing home their home/school reading diary. Children are expected to read at least four times a week with a parent. Please record the name of the book your child has read and the pages they have read.

Homework

Ancient Greek Pottery- Can you create an ancient Greek pot, it can be a drawing, model or just some key facts

Dear all,

I hope you have all had a lovely week!

Last Friday we really enjoyed our first forest school session of the year with Becky. We were very lucky because the sunshine came out for us so we could really enjoy our time in the adventure playground. Lots of us were making clay creations including mice, mini houses and even a koala! There were also lots of Gods Eyes being made, I am so impressed with how creative they all are. Of course, there was also fire making, some very impressive fires too! We even had our Praise assembly outside.

In RE this week we have been thinking about the Holy Spirit and what it means to Christians. We read some tweets and watched a video from a vicar to see what he says about Holy Spirit and what it meant to him. We then had a go at creating a class acrostic poem using the word 'Holy Spirit'.

In PE this week we have been learning how to jump over hurdles correctly in a running race. We started the lesson with some basic running races including a relay race, a balance the bean bag on your head race and a pancake race! Miss Worden then got the hurdles out and we perfected our hurdling technique including how we use our legs correctly and count before jumping over.

In Maths we have started our new learning of mass in measurement after finishing looking at money. We used scales this week to find out how we know if things are heavy or light. We then measured things using these scales, trying to recognise what we thought might be heavier/ lighter than a pencil.

Have a lovely weekend.
Miss Alen

Star of the Week!

Star of the Week

Laurie - For always pushing himself and being up for a challenge!

Value - **Holly** for showing the value of friendship and always sharing so nicely with others

Attendance

Our attendance target is 98%

Last week's attendance was 97%

Let's try and improve next week!
